CROPLIFE SA NETWORK

CERTIFIED RECYCLERS OF EMPTY PESTICIDE PACKAGING FOR THE AGRICULTURAL AND PEST CONTROL SECTORS

IT'S THE RIGHT THING TO DO

MAY 2025 5th EDITION

PROMULGATION OF THE EXTENDED PRODUCER RESPONSIBILITY SCHEME FOR THE PESTICIDES SECTOR

The Department of Forestry, Fisheries and Environment promulgated this important notice on 23 March 2023

No.		Gazette No.	Page No.
	GOVERNMENT NOTICES • GOEWERMENTSKENNISGEWINGS		
Forestry, Fisheries and the Environment, Department of / Bosbou, Visserye en die Omgewingsake, Departement van			
3177	National Environmental Management: Waste Act, 2008 (Act No.59 of 2008) NEMWA: Extended Producer Responsibility Scheme for the Pesticide Sector	48281	3

CropLife SA submitted its application to be registered as a Product Responsibility Organisation on 28 April 2023 and was registered as such with registration number 19/7/5/P/PRO/20230428/038

IT'S THE RIGHT THING TO DO

TRIPLE RINSE, PUNCTURE AND RECYCLE

IT'S THE RIGHT THING TO DO

IMPORTANT NOTICE: REGULATORY REQUIREMENTS

- Only **triple rinsed and punctured** empty pesticide packaging may be recovered, transported and recycled **(except PET (code 1) pesticide containers which cannot be recycled but must be incinerated even if they are triple rinsed)**. Such packaging **IS NOT CLASSIFIED AS DANGEROUS GOODS** by the SA National Standard 10406:2014 **Clause 3.1.6** but is classified as nominally empty packaging:
- **nominally empty packaging:**

  Previously certified packaging from which contents have been removed as far as possible, by means of the practices commonly employed to remove materials from that type of container, for example pouring, scraping, pumping, or aspirating

  NOTE: Packaging containing residual material of division 6.1 (main or subsidiary hazard, in accordance with SANS 10228) is not deemed empty unless it has been triple-rinsed with an effective solvent, or has been cleaned by a method proved to achieve equivalent removal (triple rinsing in the case of empty pesticide packaging or as directed otherwise by the CropLife SA guidelines)

- Packaging that is contaminated with pesticides is categorised as **hazardous** waste and **dangerous goods**, and must be treated as such, meaning transported **ONLY** according to **SANS10231** with vehicles **licensed** as dangerous goods vehicles (D,G license disc), fitted with the required **dangerous goods identification placards** and driven by drivers that are **qualified and licensed** to drive dangerous goods vehicles.
- Even if packaging is properly rinsed, **re-using**, **selling** or **donating** them as packaging or containers for any other purposes is unlawful.
- Nominally empty or contaminated empty packaging may not be **buried** or **burned** on the farm; it is **criminal** offense in terms of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) and a **terrible waste** of a valuable resource to burn or bury empty packaging on the farm.
- Farmers must insist on being issued with a **CropLife SA CoDi Intel Declaration** by the recycler every time they hand nominally empty packaging over to a CropLife SA certified recycler.

IT'S THE RIGHT THING TO DO

TRIPLE RINSE, PUNCTURE AND RECYCLE

IT'S THE RIGHT THING TO DO

IMPORTANT NOTICE ABOUT UNRINSED CONTAINERS

CROPLIFE SOUTH AFRICA AND ITS CERTIFIED RECYCLERS WILL NOT COLLECT OR RECEIVE ANY PESTICIDE CONTAINERS THAT ARE NOT FULLY TRIPLE RINSED (FOR SOLID PACKAGING AND SPRAY RINSED FOR FLEXIBLE PACKAGING). SUCH CONTAINERS ARE CLASSIFIED AS HAZARDOUS WASTE AND MAY ONLY BE HANDLED AND TRANSPORTED BY COMPANIES THAT ARE LICENSED TO HANDLE AND TRANSPORT HAZARDOUS WASTE. CONTAINERS THAT ARE NOT TRIPLE RINSED TO THE SATISFACTION OF RECYCLERS WILL BE RECORDED AS SUCH AND LEFT TO THE OWNERS THEREOF WHO SHALL CONTRACT HAZARDOUS WASTE DISPOSAL SERVICE PROVIDERS TO COLLECT AND DISPOSE OF SUCH CONTAINERS AT THE EXPENSE OF THEIR OWNERS.

IT'S THE RIGHT THING TO DO

IF YOU DON'T TRIPLE RINSE IT, WE DON'T TAKE IT!

IT'S THE RIGHT THING TO DO

USING PESTICIDE PACKAGING POST-CONSUMER RECYCLATE (PCR) FOR MANUFACTURING POLYMER GOODS

CropLife SOUTH AFRICA SUID-AFRIKA

- HDPE, LPDE and PP pesticide packaging materials that have been processed by triple rinsing, shredding, high temperature washing, melting, blending with stabilisers, melting and extruding into pellets (also known as post-consumer recyclate or PCR), have been analysed locally and internationally for traces of pesticide residues. Analyses have shown no pesticides are present at detectable levels. This means that the pesticide packaging PCR is free from pesticide residues.

- Pesticide PCR is used in the manufacturing of various items, including but not limited to -
  - New pesticide containers (anything from 30 to 100% PCR)
  - Irrigation pipes
  - Fencing posts and droppers
  - Pallets
  - Refuse bags
  - Plastic decking planks
  - Crates
  - Small stock mobile kraals
  - Plastic outdoor furniture

- **Pesticide PCR is NOT used to manufacture packaging for any food grade materials or beverages**

IT'S THE RIGHT THING TO DO

TRIPLE RINSE, PUNCTURE AND RECYCLE

IT'S THE RIGHT THING TO DO

Triple rinsing, puncturing and recycling is your responsibility

Triple rinsing as instructed removes 99.9% of pesticide residues from containers. This is confirmed by chemical analyses conducted by the CropLife SA PRO that showed plastic chips coming from empty, triple rinsed pesticide containers contain at worst only 0.000375% pesticide residues or 3.75 mg/kg pesticide residues in the plastic

CropLife SA triple rinse posters are available in different languages. They are available under Container Management on the strapline at the upper end of the home page: https://croplife.co.za/Home/Container Management

IT'S THE RIGHT THING TO DO

TRIPLE RINSE, PUNCTURE AND RECYCLE!

IT'S THE RIGHT THING TO DO

REMOVE INSERTS AND RUBBER SEALS FROM CAPS, AND REMOVE SPRAY HEADS FROM RTU SPRAY BOTTLES; STORE CAPS & SPRAY HEADS IN SEPARATE BAGS FOR RECYCLING

CropLife SOUTH AFRICA SUID-AFRIKA

IT'S THE RIGHT THING TO DO

= DISCARD

= RECYCLE

IT'S THE RIGHT THING TO DO

PET (code 1) RTU bottles and containers cannot be recycled and must be incinerated, but the HDPE or PP spray heads may be cleaned and recycled

IDENTIFICATION OF DIFFERENT TYPES OF PLASTIC (POLYMERS) USED FOR PESTICIDE PACKAGING

CropLife SOUTH AFRICA SUID-AFRIKA

IT'S THE RIGHT THING TO DO

COEX HDPE-LDPE

Identification triangles

i. **Polyethylene terephthalate (PET or PETE) and mixed plastic (other) pesticide** bottles are thin and firm (mostly 1 litre and RTUs)

ii. **High density polyethylene (HDPE) pesticide** containers can be any colour and are general firm, but soft to the touch (different volumes)

iii. **Polypropylene (PP) pesticide bags and tubs,** bags can be any colour (bags crumble easily if left in the sun) (large variety of sizes)

iv. **Low density polyethylene (LDPE)** bags are clear and usually used as lining in paper or PP bags for granular or powdery pesticides

Containers normally have the identification triangle embossed underneath the containers while bags normally have the identification triangle printed on the bag

VERY IMPORTANT

KEEP ALL PET BOTTLES SEPARATE FROM HDPE CONTAINERS BECAUSE THEY MUST BE BE INCINERATED!!

Metamorphosis: from hazardous waste to valuable goods

1. Empty HDPE containers on farms

2. Triple rinsed empty HDPE containers delivered to a recycler

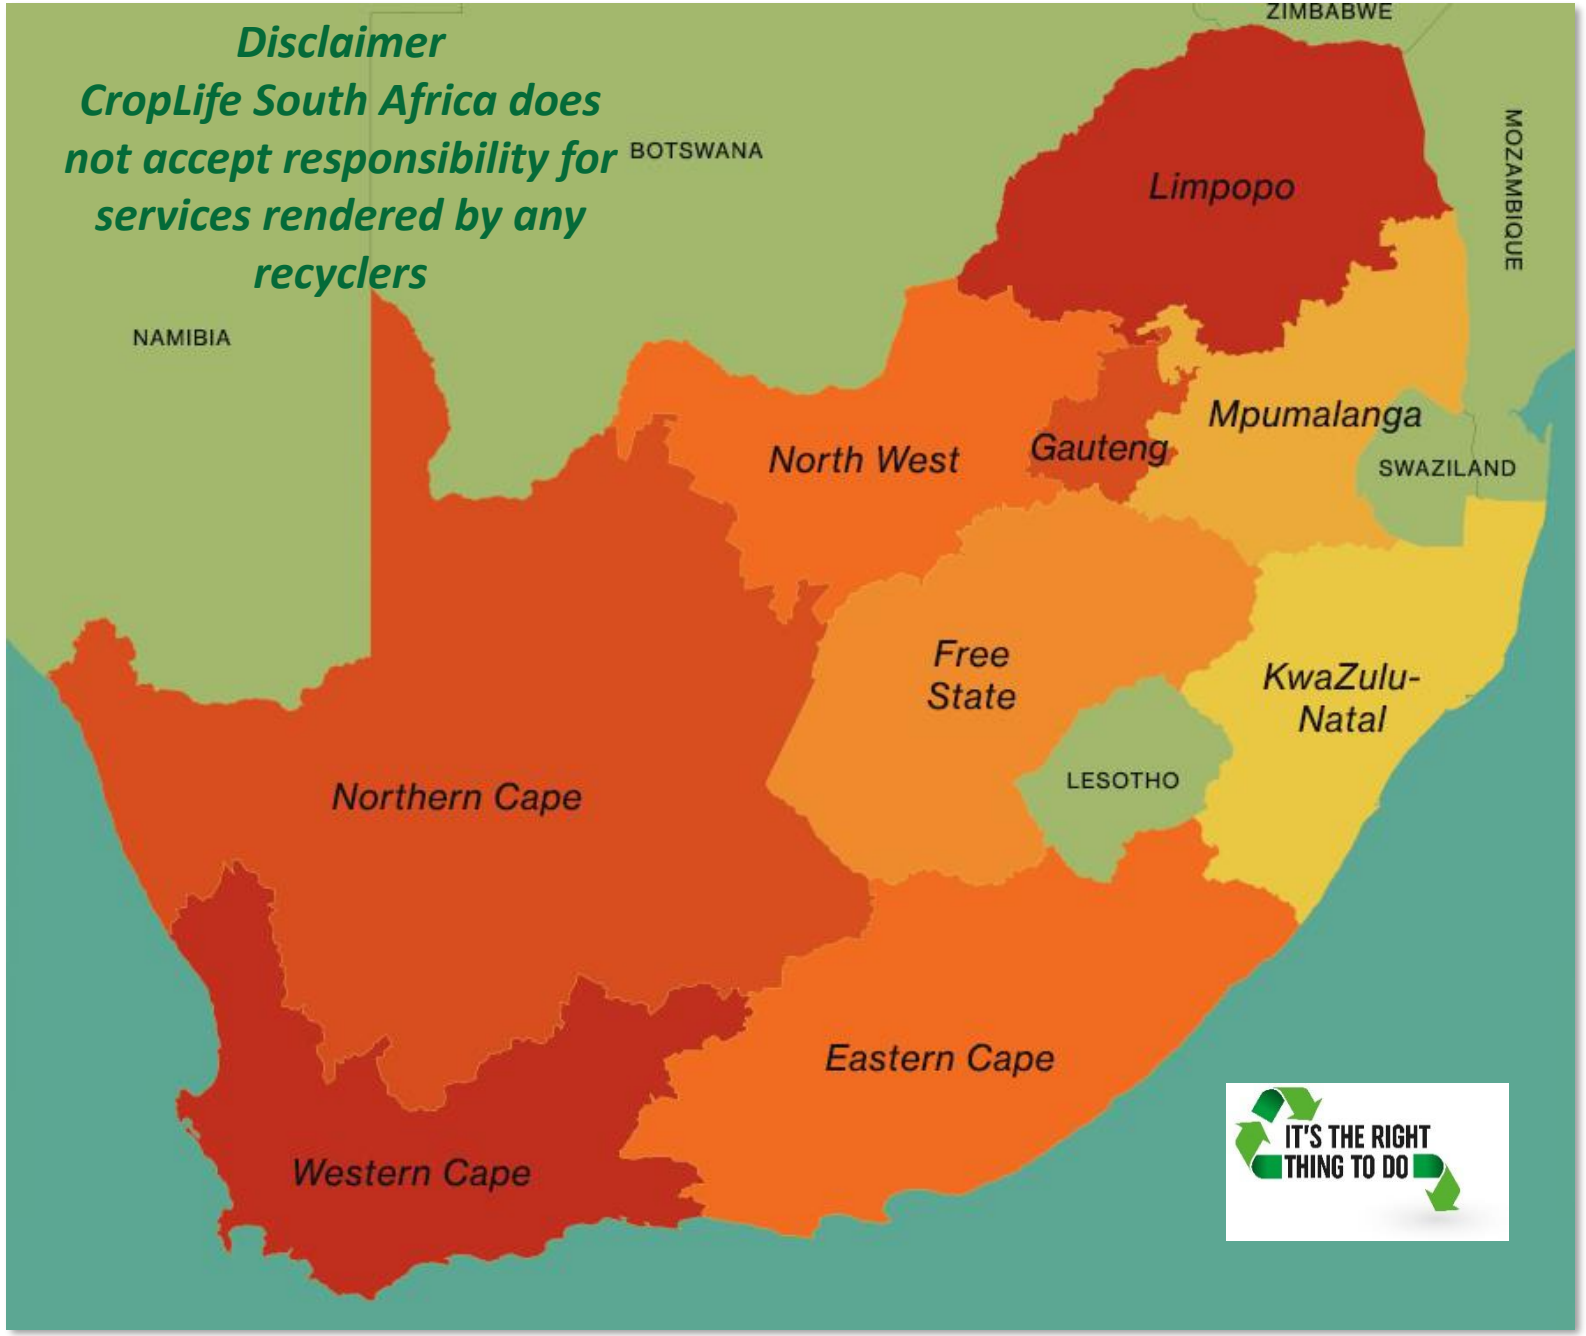
3. Triple rinsed empty HDPE containers on a conveyer on their way cleaning and shredding

4. Molten HDPE plastic being extruded

5. Pelletising extruded HDPE plastic

6. Manufacturing plastic refuse bags from recycled HDPE

Broad view of a plastic recycling plant



Disclaimer
CropLife South Africa does not accept responsibility for services rendered by any recyclers

IT'S THE RIGHT THING TO DO

CropLife SOUTH AFRICA SUID-AFRIKA

CropLife SA manages a network CropLife SA Certified Recyclers with individuals who are certified to issue CoDi Intel Declarations of legal empty pesticide packaging recycling

Click on the province to find a CropLife SA certified recycler closest to you

For more information, please contact Dr Gerhard Verdoorn: 082-446-8946 gerhard@croplife.co.za or Hiresh Ramanand: 082-497-6975 hiresh@croplife.co.za or Quade Sing Jam: 083-397-3428 quade@croplife.co.za

PLEASE NOTE THAT THE CROPLIFE SA CERTIFIED RECYCLERS ARE NOT OBLIGED BY ANY LAWS OR STATUTES TO COLLECT EMPTY PESTICIDE PACKAGING FROM FARMS – IT IS THE DUTY OF WASTE GENERATORS TO DISPOSE OF THEIR TRIPLE RINSED EMPTY PACKAGING AT CERTIFIED RECYCLERS
